

## Expression of Interest for River Frontage Works

The Lower Murray Darling Catchment Management Authority (LMD CMA) through Sunraysia Environmental Pty Ltd are seeking Expressions of Interest (EoI) from land managers who manage river frontage in the LMD CMA region and wish to undertake works to further protect and enhance their river frontage.

A variety of works may be eligible. Projects that cover more than one different management unit (ie grazing, urban, forestry etc) and those addressing multiple values and threats will be ranked higher when determining which projects receive funding. The EoI should be read in conjunction with the River Frontage Action Strategy (RFAS) supporting information (Attached).

On completion of a site assessment, a ranking process will be undertaken to assess projects.

EoI should be received in writing by close of business Friday 13 November 2009, to [enquiries@sunenv.com.au](mailto:enquiries@sunenv.com.au) or fax (03) 5021 3440

For more information call Steve Erlandsen, Sunraysia Environmental Pty Ltd 5023 3643. Please provide as much information as possible.
